ABOUT US

ALHAZZEM Company, established in Egypt since 2007, is a leading provider of industrial warehouse solutions. With a team of experienced engineers specializing in the field, we have earned a reputation for excellence in Design, Engineering Consulting, Maintenance, and Installation services. Our commitment to innovation and quality has made us a trusted partner for businesses seeking efficient and tailored solutions for their warehouse needs.

“Your Space, Our Expertise” encapsulates our dedication to transforming your warehouse into a highly organized and productive environment while ensuring your unique needs are met with precision and excellence. Experience the difference of partnering with ALHAZZEM Company – where your space becomes our canvas, and our expertise brings it to life.

OUR VISION

Our vision is to be the premier choice for industrial warehouse solutions, both in Egypt and Middle East. We aim to continually expand our expertise and product range, setting new industry standards for excellence, reliability, and customer satisfaction.

OUR MISSION

Our mission at ALHAZZEM Company is to empower businesses with cutting-edge industrial warehouse solutions that enhance efficiency, productivity, and profitability. We are dedicated to providing top-notch services and products that address our clients’ unique needs while fostering sustainable growth.

ALHAZZEM – where your space becomes our canvas, and our expertise brings it to life.

OUR VALUES

At ALHAZZEM Company, our values are the guiding principles that define who we are and how we conduct business. These core values underpin our company culture and serve as the foundation for our interactions with clients, partners, and each other.

Excellence: We are dedicated to delivering excellence in every aspect of our work.

Innovation: We embrace innovation as a driving force behind our success.

Integrity: Integrity is at the heart of our business.

Customer-Centric: Our clients are our top priority.

Sustainability: We are conscious of our environmental impact and work towards sustainable practices.

Teamwork: Collaboration is key to our success.

Continuous Improvement:
We are committed to ongoing learning and improvement.

Accountability:
We take responsibility for our actions and outcomes.

Community Engagement:
We actively engage with and support the communities where we operate.

Safety:
We prioritize the safety of our employees, clients, and partners in everything we do.

These values are the cornerstones of ALHAZZEM Company, shaping our decisions and actions as we work towards our mission of providing exceptional industrial warehouse solutions. We are proud to stand by these values and integrate them into every aspect of our business.

OUR SERVICES

At ALHAZZEM Company, we offer a comprehensive range of services to meet all your industrial warehouse needs:

Design

Our expert designers create custom warehouse layouts and storage solutions optimized for your specific requirements. We maximize space utilization and ensure efficient workflow design.

Engineering Consulting

Our experienced engineers provide insightful consulting services, offering expert guidance on warehouse optimization, safety measures, and cost-effective solutions.

Installation

Our skilled technicians handle the installation of all warehouse solutions and equipment, guaranteeing precision and adherence to safety standards.

Maintenance

We offer regular maintenance services to ensure your warehouse equipment and systems operate at peak performance, minimizing downtime and preventing costly disruptions.

OUR PROCESS

Our process is designed to ensure that every project we undertake is executed seamlessly, efficiently, and to the highest standards of quality.

Case Study:

Before embarking on any project, we conduct a thorough case study to gain a deep understanding of your unique requirements and challenges. This phase involves:

- Conducting a needs assessment to identify your project goals and constraints.
- Performing a comprehensive evaluation of your warehouse space, considering factors like layout, workflow, and safety.
- Collaboratively establishing a budget aligned with your financial objectives.
- Proposing tailored solutions based on our assessment, optimizing space utilization and efficiency.

Racking Design:

Once the case study phase is complete and the proposal is accepted, we move on to the racking design stage, where precision and innovation come together. This phase includes:

- Creating customized racking and storage solutions, maximizing available space and ensuring efficient storage and retrieval.
- Prioritizing safety by integrating safety features to meet all standards and regulations.
- Ensuring quality by using high-quality materials and components.
- Maintaining open communication with you to align the design with your vision.

Installation:

With the approved design in hand, we move forward with the installation phase, where precision and expertise are critical. This phase includes:

- Professional installation by our skilled technicians and teams, ensuring precise and accurate assembly of components.
- Timely execution to minimize disruptions to your operations.
- Rigorous quality checks during and after installation to ensure secure placement and adherence to safety standards.
- Client training on the proper use and maintenance of the installed systems to empower your staff for efficient operation.

OUR PRODUCTS

Explore our wide range of industrial warehouse products designed to meet various storage and handling needs:

01

Storage Solutions:

- **Heavy Duty:**
 - Pallet Rack
 - Wide Aisle Pallet Rack
 - Drive-in & Drive Through
 - Double Deep
 - Cantilever
- **Medium Duty:**
 - Long-Span Shelving
 - Slotted Angle units
- **Light Duty:**
 - Bolt-Free
 - Chrome Shelving Systems
- **Mezzanine Systems**

02

Warehouse:

We offer essential warehouse infrastructure components including:

- Ramps
- Fixed Elevators
- Dock Levelers
- Shutter Doors
- Metal Trusses
- Steel Ladders
- Steel Fences
-

Handling Equipment

03

Our handling equipment includes:

- Steel Trolleys
- Scissor Lift
- Hand Pallets
- Pallet Stacker
- Plastic Pallets
- Steel Pallets

Office Solutions

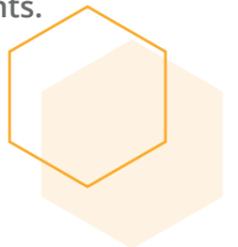

Enhance your office space with:

- Steel Lockers
- Steel Shannon
- Mobile Shelves

04

At ALHAZZEM Company, we are committed to delivering quality products and services that transform your industrial warehouse into a seamless, organized, and efficient space. Contact us today to discover how we can tailor our solutions to your unique needs and elevate your warehouse operations to new heights.

STORAGE SOLUTIONS

HEAVY DUTY:

Heavy Duty Racks are designed for high-capacity storage, perfect for warehouses and industrial environments where storing heavy and bulky items is essential. These racks provide a strong and reliable solution to optimize space and improve inventory management.

Features:

- Robust Construction
- High Load Capacity
- Easy Assembly
- Safety Features
- Adjustable Shelving
- Versatile Configurations
- Easy Assembly and Reconfiguration
- Corrosion Resistant

Pallet Rack:

Pallet Racks are designed for high-density storage, accommodating pallets and heavy items in a safe and organized manner.

Features:

- Quick and easy assembly without tools
- Adjustable shelf height
- Strong and stable construction
- Suitable for various storage needs

STORAGE SOLUTIONS

HEAVY DUTY:

Drive-in & Drive-Through:

Drive-in & Drive-Through racks maximize storage space by allowing forklifts to enter the rack structure for loading and unloading.

Features:

- High-density storage
- Efficient use of space
- Ideal for homogeneous products
- Reduces aisle space

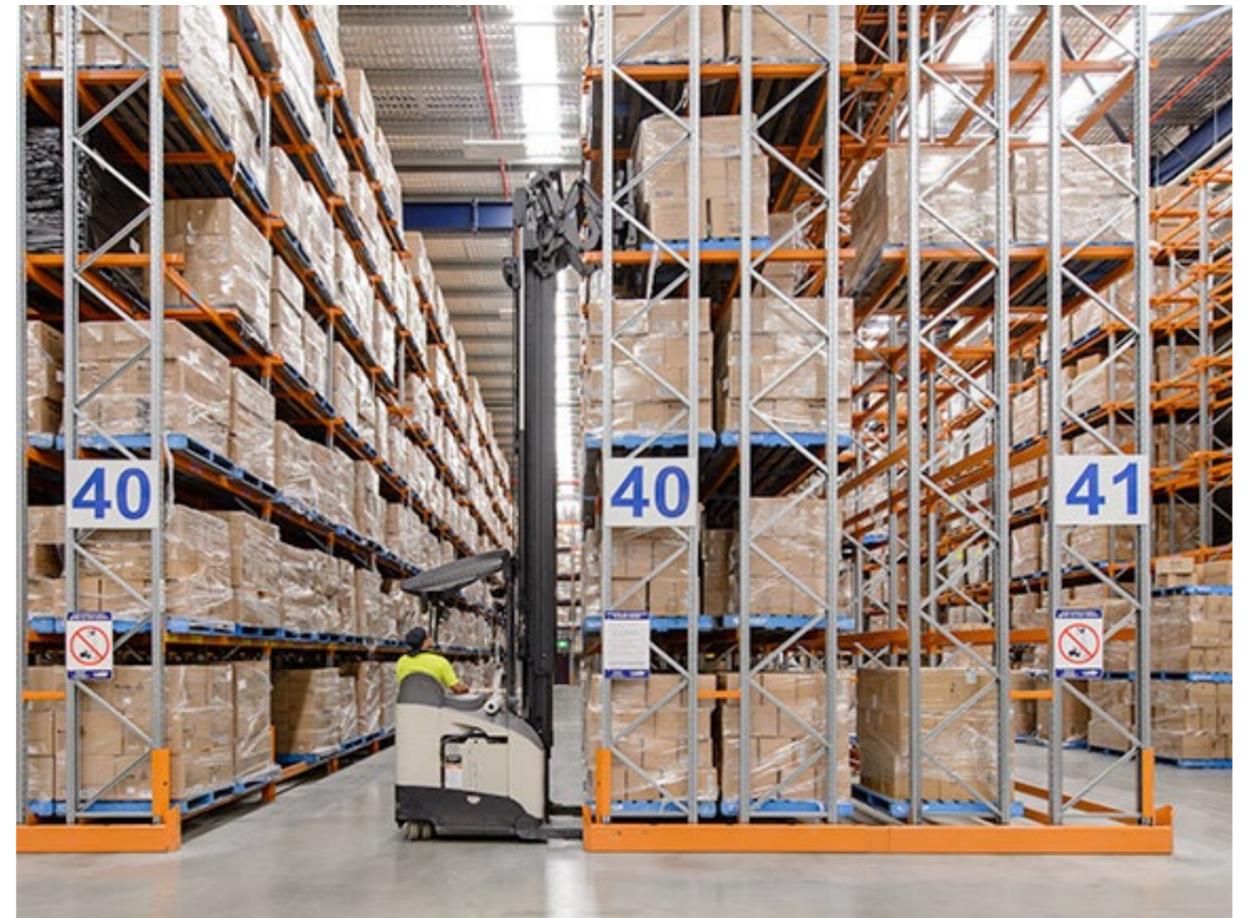

Double Deep:

Double Deep racks offer increased storage capacity by allowing pallets to be stored two deep, reducing aisle space requirements.

Features:

- Maximizes storage space
- Reduces aisle requirements
- Suitable for high-volume storage
- Requires specialized handling equipment

STORAGE SOLUTIONS

HEAVY DUTY:

Wide Aisle Pallet Rack:

Wide Aisle Pallet Racks provide ample space between racks, enhancing accessibility and maneuverability for forklifts.

Features:

- Spacious aisle design
- High storage density
- Easy access for handling equipment
- Robust construction

Cantilever:

Cantilever racks are ideal for storing long, bulky items such as pipes, lumber, and furniture.

Features:

- Open design for easy access
- Adjustable arms
- Suitable for long and irregular items
- High load capacity

STORAGE SOLUTIONS

MEDIUM DUTY:

Medium Duty Racks are versatile and robust storage solutions designed to hold a wide range of items, from bulky goods to medium-weight materials. They are ideal for warehouses, workshops, and retail environments, providing efficient and organized storage with easy access to stored items.

Features:

- Sturdy Construction
- Adjustable Shelves
- Easy Assembly
- High Load Capacity
- Versatile Design
- Corrosion Resistant

Long-Span Shelving:

Long-Span Shelving is designed for storing larger, bulkier items, offering versatility and strength.

Features:

- Sturdy construction for heavy loads
- Adjustable shelf heights
- Easy to assemble and reconfigure
- Ideal for warehouses and industrial use

STORAGE SOLUTIONS

MEDIUM DUTY:

Slotted Angle Units

Slotted Angle Units are highly flexible storage solutions that can be customized to fit a variety of storage needs.

Features:

- Versatile and easy to assemble
- Adjustable shelves
- Durable and robust design
- Suitable for both light and heavy items

LIGHT DUTY:

Light Duty Racks are perfect for storing small to medium-sized items in a neat and organized manner. Ideal for retail, home, and office use.

Features:

- Easy assembly and disassembly
- Adjustable shelves
- High load capacity per shelf
- Durable and corrosion-resistant materials

STORAGE SOLUTIONS

LIGHT DUTY:

Chrome Shelving Systems

Chrome Shelving Systems provide an attractive and durable storage solution, ideal for both commercial and residential use.

Features:

- Rust-resistant chrome finish
- Adjustable shelves
- Sleek and modern design
- High load-bearing capacity

Bolt-Free Shelving System:

Bolt-Free shelving systems offer a flexible and efficient storage solution with a simple, tool-free assembly process.

Features:

- Quick and easy assembly without tools
- Adjustable shelf height
- Strong and stable construction
- Suitable for various storage needs

STORAGE SOLUTIONS

MEZZANINE SYSTEMS:

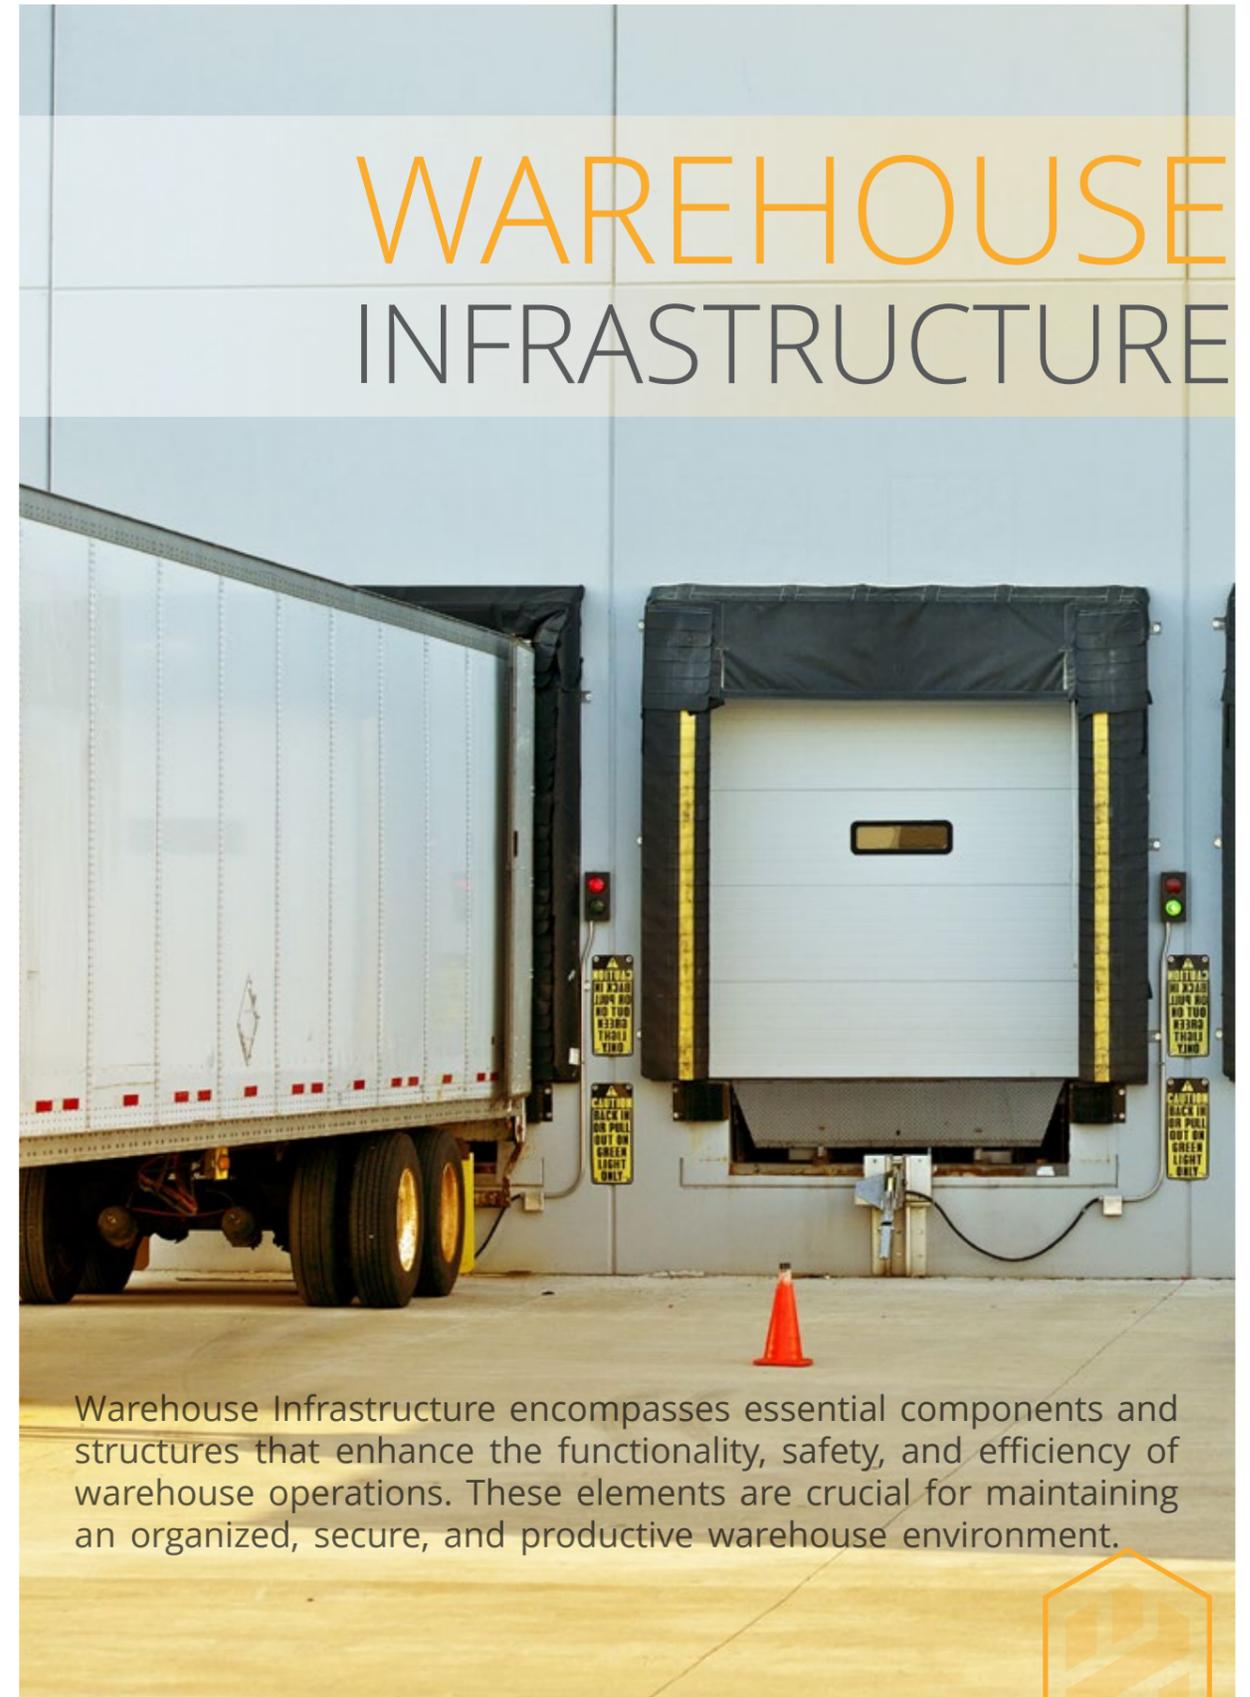

Mezzanine Systems provide additional floor space within a warehouse, optimizing vertical storage.

Features:

- Customizable designs
- Increases usable floor space
- Robust and safe construction
- Cost-effective space utilization

WAREHOUSE INFRASTRUCTURE

Warehouse Infrastructure encompasses essential components and structures that enhance the functionality, safety, and efficiency of warehouse operations. These elements are crucial for maintaining an organized, secure, and productive warehouse environment.

WAREHOUSE INFRASTRUCTURE

RAMPS:

Ramps are essential components in warehouse infrastructure, designed to facilitate the movement of goods between different levels or surfaces. They are critical for efficient loading and unloading operations, providing a smooth transition from ground level to dock height or between different floors. Constructed with robust materials, ramps ensure safety, durability, and ease of use, making them indispensable in modern logistics and warehouse environments.

Types:

- Fixed Ramp
- Mobile Ramp
- Custom Ramp

FIXED RAMP:

A Fixed Ramp is a permanent installation designed to provide a stable and durable incline for moving goods between different heights or levels within a warehouse or industrial setting. These ramps are essential for facilitating the smooth and efficient transfer of heavy equipment, forklifts, and other materials between loading docks and transport vehicles.

Features:

- Durable Construction
- Non-Slip Surface
- High Load Capacity
- Permanent Installation
- Weather-Resistant
- Safety Rails
- Minimal Maintenance

WAREHOUSE INFRASTRUCTURE

MOBILE RAMP:

A Mobile Ramp is a portable, flexible solution designed for temporary use in loading and unloading goods. These ramps are ideal for operations that require mobility and versatility, such as temporary worksites, seasonal operations, or warehouses with multiple loading areas.

Features:

- Portability
- Adjustable Height
- Durable Construction
- Non-Slip Surface
- High Load Capacity
- Quick Setup
- Safety Features
- Weather-Resistant

CUSTOM RAMP:

A Custom Ramp is tailored to meet specific requirements and dimensions, providing a unique solution for specialized applications within warehouses, factories, or other industrial settings. These ramps are designed to address particular operational challenges, ensuring optimal efficiency and safety.

Features:

- Tailored Design
- Material Options
- Non-Slip Surface
- Specialized Features
- Fixed or Mobile
- Load Capacity
- Weather-Resistant
- Compliance

WAREHOUSE INFRASTRUCTURE

DOCK LEVELERS:

The Dock Leveler is an essential component in modern warehouses and logistics centers, designed to bridge the gap between the warehouse floor and the truck bed, facilitating smooth and efficient loading and unloading operations. With its robust construction and advanced design, the Dock Leveler ensures safe, reliable, and efficient handling of goods, accommodating various truck heights and ensuring minimal downtime during operations.

Types:

- Edge-of-Dock Levelers
- Telescoping Lip Dock Levelers
- Recessed Dock Levelers

EDGE-OF-DOCK LEVELERS:

Edge-of-Dock Levelers are compact, easy-to-install solutions ideal for smaller loading areas. Mounted directly to the dock face, they offer a practical range of height adjustments. Perfect for facilities with limited space and budgets, these levelers provide efficient and reliable loading and unloading.

Features:

- Compact Design
- Easy Installation
- Cost-Effective
- Height Adjustments
- Space Efficient

WAREHOUSE INFRASTRUCTURE

TELESCOPING LIP DOCK LEVELERS:

Telescoping Lip Dock Levelers feature an adjustable lip that can extend or retract, allowing for flexibility in accommodating various truck bed heights and sizes. This adaptability makes them ideal for facilities with diverse loading requirements, ensuring smooth transitions between the dock and truck, minimizing product damage, and enhancing safety.

Features:

- Adjustable Lip
- Flexibility
- Smooth Transition
- Durable Construction
- Easy Operation
- Enhanced Safety
- Versatility

RECESSED DOCK LEVELERS:

Recessed Dock Levelers are installed into a pit, offering a seamless transition between the dock and the truck. Flush with the dock floor when not in use, they provide a clear area for other activities. Available in both mechanical and hydraulic models, these levelers are easily customizable to meet specific needs, ensuring smooth loading and unloading operations with high load capacity and robust safety features.

Features:

- Pit Installation
- Flush Design
- Customization
- Operation Options
- Smooth Transition
- High Load Capacity
- Safety Features
- Durability

WAREHOUSE INFRASTRUCTURE

FIXED ELEVATORS:

Fixed Elevators are essential for efficient vertical transportation of goods within multi-level warehouses.

Features:

- High load capacity
- Safe and reliable operation
- Easy to operate
- Suitable for heavy and bulky items

SHUTTER DOORS:

Shutter Doors provide secure and easy access to warehouse areas, offering protection and convenience.

Features:

- Robust and durable
- Easy to operate
- Provides security
- Weather-resistant

WAREHOUSE INFRASTRUCTURE

METAL TRUSSES:

Metal Trusses offer strong support for warehouse roofs and other structures, ensuring stability and durability.

Features:

- High strength and stability
- Durable materials
- Customizable designs
- Suitable for various structures

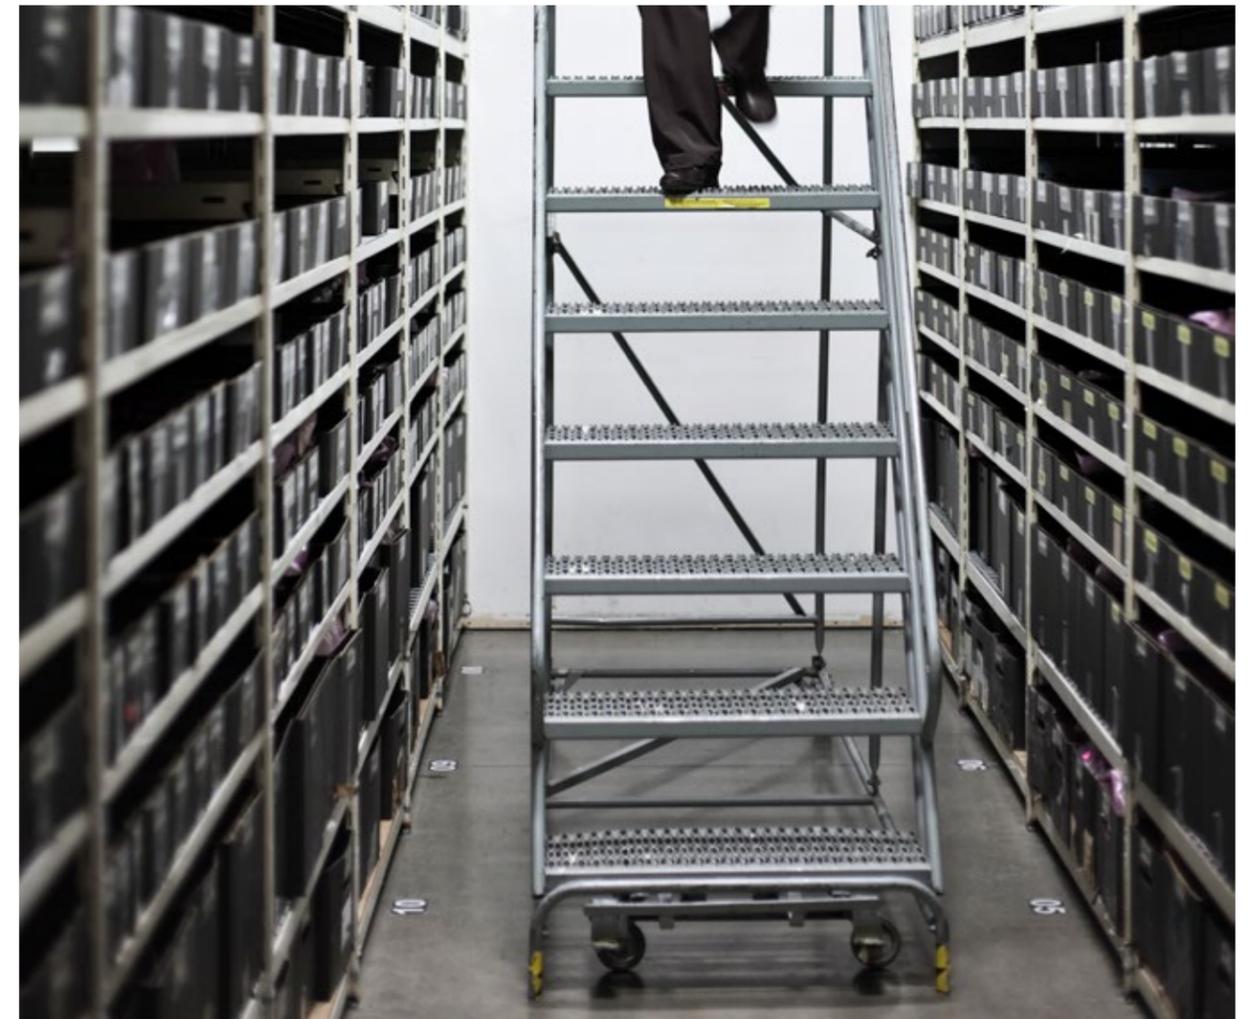

STEEL LADDERS:

Steel Ladders provide safe and reliable access to high shelves and storage areas within the warehouse.

Features:

- Sturdy construction
- Non-slip steps
- Easy to move and position
- High load capacity

WAREHOUSE INFRASTRUCTURE

STEEL FENCES:

Steel Fences enhance security within the warehouse by creating secure enclosures and barriers.

Features:

- Strong and durable
- Easy to install
- Provides high security
- Customizable sizes

METAL SHADES:

Metal Shades provide protection from the elements, ideal for outdoor storage and working areas.

Features:

- Durable and weather-resistant
- Provides shade and protection
- Easy to install
- Suitable for various applications

HANDLING EQUIPMENT

STEEL TROLLEYS:

Steel Trolleys are versatile and durable, ideal for transporting goods within the warehouse.

Features:

- Robust construction
- Easy to maneuver
- High load capacity
- Suitable for various applications

HANDLING EQUIPMENT

HAND PALLETS:

Hand Pallets are essential for manual transportation of goods on pallets, ensuring efficient handling.

Features:

- Easy to use
- High load capacity
- Durable construction
- Smooth operation

SCISSOR LIFT:

Scissor Lift provide a safe and efficient means of lifting goods and personnel to various heights within the warehouse.

Features:

- High lifting capacity
- Stable and safe operation
- Easy to operate
- Suitable for indoor and outdoor use

HANDLING EQUIPMENT

PALLET STACKER:

Stacker Cranes offer automated storage and retrieval solutions, enhancing efficiency in high-density warehouses.

Features:

- Automated operation
- High precision and speed
- Increases storage capacity
- Suitable for various pallet sizes

PLASTIC PALLETS:

Plastic Pallets provide a lightweight and durable solution for storing and transporting goods.

Features:

- Lightweight and easy to handle
- Durable and long-lasting
- Hygienic and easy to clean
- Resistant to moisture and chemicals

HANDLING EQUIPMENT

STEEL PALLETS:

Steel Pallets offer a robust and heavy-duty option for storing and transporting goods within the warehouse.

Features:

- High load capacity
- Durable and long-lasting
- Resistant to impact and wear
- Suitable for heavy and bulky items

OFFICE SOLUTIONS

Our Office Solutions are designed to enhance the functionality and organization of your office space. With a focus on durability and practicality, these products ensure a tidy and efficient working environment.

OFFICE SOLUTIONS

STEEL LOCKERS:

Steel Lockers provide secure and organized storage for personal items and office supplies.

Features:

- Durable steel construction
- Secure locking mechanisms
- Ventilated design
- Available in various sizes

STEEL SHANNON:

Steel Shannon offer sturdy and reliable storage solutions for office documents and supplies.

Features:

- Robust construction
- Adjustable shelves
- Secure locking system
- Sleek and professional design

OFFICE SOLUTIONS

MOBILE SHELVES:

Mobile Shelves are designed for efficient space utilization in offices, allowing easy movement and access to stored items. These versatile shelving systems are perfect for optimizing storage space, improving organization, and enhancing accessibility.

Features:

- **Easy to Move:** Smooth-rolling casters make repositioning effortless.
- **Adjustable Shelves:** Customize the spacing to fit different items.
- **Durable and Stable:** Built from high-quality materials for long-lasting use.
- **Enhances Storage Efficiency:** Maximizes space and improves organization.
- **Locking Mechanism:** Secures shelves in place to prevent unwanted movement.

More Features:

- **Versatile Use:** Suitable for offices, libraries, archives, and retail spaces.
- **Space-Saving Design:** Fits into tight spaces, ideal for small offices.
- **Easy Assembly:** Quick and simple to set up.
- **Aesthetic Appeal:** Available in various finishes to match office décor.
- **Cost-Effective:** Provides maximum storage without needing extra furniture.
